REBUILDING PAKISTAN

Unimaginable damage and destruction caused by the flash floods in Pakistan, took over one-third of the entire country, resulting in the worst floods to occur since 2010.

33 million people were impacted by the floods across the country. Now, almost reaching a year on since the floods began, the people of Pakistan are suffering from high inflation due to the huge loss of standing crops and agricultural lands. This loss has made it difficult for the average household to meet their essential needs.

People affected by the floods, are now under another great threat. Dangerous diseases are spreading due to unsanitary and stagnant water created by the floods are affecting people in the areas affected by the floods.

To restore Pakistan to the stability it experienced before these floods will take years with the total loss and damages to Pakistan expected to be over \$10 billion USD.

Islamic Relief was one of the first organisations on the ground to respond to the crisis when the floods struck, and carried out responses across Pakistan. There we delivered lifesaving essentials such as tents, food packs, clean drinking water, tarpaulin sheets, kitchen sets and multipurpose cash grants. We have since delivered aid to a staggering 791,946 people, but your support is still desperately needed to help rebuild the lives of those who have lost everything in these devastating floods.

As yet another harsh winter approaches, the situation could drastically deteriorate for those without adequate shelter - immediate measures need to be taken.

For those without sufficient and safe shelter, Islamic Relief has started to work on providing permanent shelters for those in need. The houses are being built in the worst affected areas of Balochistan and Sindh. Each shelter contains a 14'x14' room manufactured using thick brick walls to ensure the structure holds.

Islamic Relief Pakistan will also train 120 local volunteers, skilled and unskilled labourers on the construction of shelters. The training will also include the design of disability inclusive shelters, in accordance to accessibility standards.

FUNDRAISING

Daunted by the prospect? Don't be, it's a lot easier than it seems. You're not the first and certainly will not be the last to take on such a challenge. Embrace it for all it's worth. It's important to break it into smaller, more manageable targets.

Fundraising can be easy and enjoyable. And it really is all down to you. It's a huge challenge to raise such an amount of money but remember it is more than achievable. Many challengers over the years have multiplied their fundraising targets!

Here we have outlined a few ideas to help you to raise the target amount. If you have any questions please let us know and if you need any additional materials Islamic Relief will be happy to provide them.

E-FUNDRAISING

The internet can, if used well, be an amazing fundraising tool for you. Your page will have automatically been created when you signed up.

MAKE IT PERSONAL

Make your page as compelling as possible by adding your own photograph and text. Make sure your page communicates the reason you have chosen to raise money, and why you believe Islamic Relief deserves support. Be creative!

FAMILY & FRIENDS 1ST

Before sending an email to your entire address book, ask your closest friends and family to donate first. An empty page can be a little intimidating, so do make sure to capture a couple of donations before contacting your entire list of potential sponsors. People tend to match the amounts already listed on the page, so target your most generous supporters first!

SOCIAL MEDIA

This is an excellent way of keeping friends updated and asking friends to pass on your fundraising page. You can link your page to your, other social media accounts to expose your page to more people. You can also add it to your stories on Instagram through a link or any other social media you use regularly. Go live before your challenge as you prepare to create more traction to your page.

TELL EVERYONE YOU KNOW

Email your family, friends and colleagues with a link to your page, but don't forget other groups of potential supporters: former colleagues, old school and college friends, and Facebook/Instagram friends you may be surprised how many would like to sponsor you. Encourage them all to pass on the message to anyone else that might support Islamic Relief's work. You can also contact your work managers and see if your company will match your donations as many companies may offer this incentive. Send messages on your whatsapp groups asking people to donate to the cause.

CONTACT YOUR LOCAL MEDIA

Publicity in the local media can be an invaluable fundraising tool. A few lines in the local paper, or an appeal for sponsorship on your local radio station, can yield amazing results. With online fundraising, attracting sponsorship couldn't be easier — readers and listeners can simply visit your page and sponsor you direct.

TRIP PACKING ADVICE

This is a suggested packing list of some items needed for this adventure.

Clothing should be casual and hard-wearing; easy to wash field clothes are best for most of the holidays. It is best to pack several thinner layers rather than one thick layer.

It is also best not to pack more items than what you actually need as we will be covering large distances in buses and you don't want to be squashed up with your luggage!
